

District Improvement Planning Team Notes 11/6/08

Present:

Notes: The group was divided into four subgroups. The four subgroups rotated to four tables during the hour. Each table contained a folder of data. The data topics were:

- student assessment
- perception (survey results)
- contextual (such as Healthy Youth Survey Results)
- demographic

At each table each subgroup wrote observations of the data. These observations were listed as strengths or challenges.

This information was collected by Steve Pointer to be compiled and reviewed at our next meeting.

Next Meeting:

Thursday, November 13, 2008
3:45-5:00
Administration Board Room

Agenda: To study and discuss our work to date in light of creating goals for the District Improvement Plan that support School Improvement Plans.

- Celebration of strengths
- Review of challenges
- Discussion of relationships between the district mission statement, strategic plan goals, strengths and challenges observed in the data on Nov. 6th, district improvement plans and school improvement plans.

Upcoming Meetings

Dec. 4th: School Improvement Plans and Goals
Jan. 15th: District Improvement Plan Goals
Jan 29th: Completion of District Improvement Plan

Our work should be finished!
