2015-2016

UPDATED INFO
11/16/15

School/Road Closure Hotline 242-SNOW (242-7669)

East Valley School District has a twenty-four hour school closure hotline. Call 242-7669 to receive daily information about school closures and/or school bus route changes.

With the assistance of ESD 101, information about school closures and/or school bus route changes is also provided to the local radio and television stations. In addition, you may check the internet at www.evsd.org and click on the Snow Link.

When a road or area is closed to school buses in the morning, the road/area will remain closed for the entire day.

Alternate Pick Up/Drop Off Locations During Road Closures

Certain roads and/or areas in the district are closed more often than others. For many of these, we provide alternate locations for student pickup and drop-off. These are not the only roads that may be closed to school bus travel, just the most commonly closed roads. For up to date information, check the snow hotline (242-SNOW), listen to your local radio/television station for specific information about your area or check the website at www.evsd.org.

The following are the more commonly closed roads in the East Valley School District.
